Mr. Mark Hein, VP of Operations
Hein Bros., Painting & Restoration

Mr. Hein,

I wanted to thank you for the excellent work your company did on the exterior restoration of the concrete up on the 21st and 22nd levels of the Beau Rivage Condominium Association.

The drone that was very beneficial for discovering the cracks in the exterior wall as well as the deteriorating caulk around several windows, all of which led to the water intrusion into the two-story penthouse.

Needless to say the restoration was done in a timely manner and once completed allowed for the interior repairs to be made.

I want to say that if there is a need for your services in the Future, rest assured we will be in contact with you.

Respectfully,

Jeff Charpentier, PCAM & Florida CAM
General Manager
